Financial & Risk Analyst
Financial Analysis | Risk Management | Compliance | SQL | Power BI

PROFILE

Financial & Risk Analyst, Master's in Business Analytics (2026), with hands-on experience at Genpact, Telus and Banque Zitouna: detecting anomalies and risk patterns, monitoring cash flows, processing banking and card transactions, in strict compliance with confidentiality standards. KPI and SLA tracking (98% accuracy), process optimization (15% reduction in processing time). Complemented by SQL, Python, Power BI and Tableau.

PROFESSIONAL EXPERIENCE

Data Operations & Risk Management Analyst • *2025 — 07/2026*
Genpact — Bucharest, Romania

- Identified trends, anomalies and risk patterns in large data volumes to inform internal policy decisions.
- Performed root-cause analysis on complex, escalated cases, working with the Quality and Management teams.
- Tracked key performance indicators (KPIs) and service level agreements (SLAs), maintaining a consistent 98% accuracy rate.
- Evaluated existing processes and made recommendations that contributed to a 15% reduction in average processing time.

Financial Operations & Billing Analyst • *05/2025 — 09/2025*
Telus — Bucharest, Romania

- Monitored and verified cash flows related to customer payments, refunds and credit card transactions, with a high level of accuracy.
- Processed banking operations and financial transactions daily; resolved billing and transaction disputes under pressure.
- Verified and updated financial information and customer accounts, in strict compliance with confidentiality and compliance standards.
- Clear communication and adaptability in a client-facing financial environment.

Internship — Sales Advisor • *06/2023 — 11/2023*
Banque Zitouna — Bizerte, Tunisia

- Managed customer accounts: opening, updating and verifying bank account information (account maintenance).
- Took part in loan application processing: building credit files and verifying supporting documents.
- Processed check operations (deposits, compliance verification) according to internal banking procedures.
- Guided banking customers in choosing financial products and services suited to their needs.

EDUCATION

Master's in Business Analytics • *2024/2026*
Bucharest University of Economic Studies (FABIZ)

- Strategic Decision-Making: applying quantitative methods to real-world financial problems.
- Data Visualization & BI: Power BI, Tableau — designing automated dashboards.
- Machine Learning & Programming: predictive models and automated statistical workflows with Python.

National Bachelor's Degree in Economic Sciences — Economic Engineering and Finance • *2024*
Higher Institute of Management of Bizerte (ISG)

- Risk management: study of financial markets to assess investment risk and optimize portfolio management.
- Financial modeling: analysis and mathematical modeling of economic trends and business performance.
- Business economics: micro/macroeconomic indicators and their impact on financial strategy.
